Bitschu Batschu is an Austrian born Artist, based in Vienna, the city he grew up in.

Early on he started listening to Old school Hard Techno and Trance music. A childhood influenced by fast and bass heavy sounds lead to him playing and producing music today.

Not in contrast, but in addition to his love for music he also expresses through painting. A pure, happy world filled with sunny flowers and joyful animals. Reflecting his view on life and all things living.

In his DJ-Sets he finds ways to combine old classic Trance with a newer generation of hard hitting sounds. Evoking childlike memories; bringing your guests and events to life in an ecstatic unison of dance.

Batschu has established a unique creative identity with his initial Music releases. In addition to a selection of German-language songs, he has already collaborated with a Brazilian artist, releasing a track in Brazilian Portuguese.

His upcoming releases will be even more diverse, featuring songs in Italian and a strong focus on English and more international tracks. He aims to reach a broader audience and showcase his musical versatility.
